

# “A comprehensive approach to canine mast cell tumours” webinar series

Virbac are proud to work in collaboration with BattLab/ LABOKLIN to offer veterinary surgeons a unique and comprehensive webinar series on canine mast cell tumours, in a series of 3 complimentary bitesize webinars with eminent specialists in their respective fields.

Each 30 minute session will focus on a specific aspect of MCT diagnostics followed by a multidisciplinary Q&A with specialists.

Talk 1:

**Thursday 7th October at 7:30pm**

## **A GP approach to work up canine mast cell tumours**

by **Sara Verganti Dip ECVIM-CA (Onc) MSc (Clin Onc) MRCVS**

Sara's webinar takes a GP perspective on mast cell tumours; their clinical presentation, how to achieve a diagnosis. With guidance on staging followed by an overview of treatment options including the latest novel intratumoural injection, Stelfonta®.

### **Sara**

Sara Verganti is a board-certified small animal oncologist and is currently the Head of the Oncology Department at Dick White Referrals. She is author of several publications and enjoys both the teaching as well the clinical aspect of her job.

Talk 2:

**Thursday 14th October at 7:30pm**

## **What cytology can tell you**

by **Francesco Cian DVM DipECVCP FRCPath MRCVS**

Francesco will talk delegates through MCT cytology; their cytological presentation, diagnostic challenges and discussion around cytological grading and staging.

### **Francesco**

Francesco Cian is a board certified veterinary clinical pathologist working for BattLab/ LABOKLIN. He passionately teaches clinical pathology to veterinarians and is also author of two veterinary cytology books.

Talk 3:

**Thursday 21st October at 7:30pm**

## **The histopathology report and proliferative markers: what they mean for your patients**

by **Roberta Rasotto DVM PhD DipECVP MRCVS**

Roberta's session focuses on the histopathological features of mast cell tumours. Discussion will include MCT prognostic factors with a focus on proliferation markers and grading evaluation.

### **Roberta**

Roberta Rasotto is an ECVP / RCVS recognised specialist in Veterinary Pathology. She has over 10 years' experience in diagnostic histopathology and she is author of various publications in the field of veterinary oncologic pathology.
